Agilent ESA/EMC Spectrum Analyzer

Configuration Guide

This configuration guide will help you select the right options to optimize the ESA or EMC analyzer for your application. In addition, it includes information for upgrading your existing ESA or EMC analyzer. For additional product and application information, please see the information listed at the end of this guide.

The ESA analyzer is available in three "express option" choices that each have a simplified set of the most frequently ordered options. Express options are favorably priced and provide faster delivery.

The EMC analyzer is available in two models, which include the most frequently ordered options.

For unique requirements, the ESA analyzer may be custom configured from the complete set of available options.

Express Analyzers - best delivery and price

Basic Analyzer — ESA-L Series (Express Option BAS/BTG) Note: All basic analyzers include a 50 ohm RF input port.

E4411B (9 kHz to 1.5 GHz)		The BAS express option is only available on the ESA-L Series models					
E4403B (9 kHz to 3.0 GHz)		For a basic analyzer with tracking generator, order Option BTG					
E4408B (9 kHz to 26.5 GHz)		instead of Option BAS.					
Included options		Comments					
IF sweep, and video output ports	A4J	Occupies one expansion slot					
GPIB connection	A4H	Occupies one expansion slot					
IntuiLink PC connectivity software		Connects to Microsoft® Word and Excel					
Available options		Comments					
Replace GPIB connection (A4H) with serial port	1AX	Not compatible with Option A4H; occupies one expansion slot					
Narrow resolution bandwidths	1DR	100 Hz minimum on ESA-L Series					
50 ohm tracking generator (9 kHz to 3.0 GHz)	BTG	TG operates to 1.5 GHz on E4411B; equivalent to Option BAS with 1DN					
8590 Series programming code compatibility	290	Free download on Web at www.agilent.com/find/esa; no license required

There are two ways to order upgrades:

Method 1: Add the letter U to the end of the model number. For example, to order an Option 1CP for an existing E4402B , order: E4402BU-1CP

Method 2: Order the part number. For example, to order the rack mount and handle kit (equivalent to Option 1CP), order E4401-60057.

Depending on availability, faster delivery of upgrades may be possible by ordering the part number instead of the option number.

 $See \ \textbf{www.agilent.com/find/sa_upgrades and www.parts.agilent.com} \ for \ more \ information.$

^{1.} For new instrument orders, accessories are ordered the same way as other options. For example, to order Option 1CP (rack mount and handle kit)for a new E4402B, order: E4402B-1CP.
